

TYPICAL EDGE DETAIL

TYPICAL PLAN DETAIL OF CORNER SHOWING FELT MITER CUT.

total table height: 16" from floor.

10.00 plywood
10'
6'
8'
24' 2x4
10.00
3.00 screws

IMPORTANT: vinyl to be stretched over table like a painting on canvas, i.e., centers of sides & ends to be nailed first and then working towards corners which are stretched & folded last.

89" x 44" vinyl upholstery fabric, "Naugethys Aerflo" recommended, fixed with 3/4" upholstery nails @ 2" centers.

824 mont.

NOTE: felt is shown upside-down to indicate corner cut more clearly.

81" x 36" x 1" thick soft quality upholstery felt adhesive bonded to plywood top. "3M Adhesive 44 Aeroseal" recommended.

15.80

see DETAIL OF CORNER MITER CUT above.

75" x 30" x 1 1/8" thick plywood top with bull-nosed edge all around, screwed to frame with 14 CSK counter sunk No. 10 wood screws (2 1/2" long) in positions shown. All screw heads to be countersunk.

legs are 13 3/4" long, tops flush with top of frame.

All screw heads to be counter-bored & plugged.

frame constructed of 2x4 (1 1/2" x 3 1/2" finished) kiln-dried fir. All joints to be glued & screwed with No. 10 CSK wood screws (2 1/2" long) at positions as typically shown.

FELDENKRAIS WORK TABLE
